

NAA: Advocacy, Acronyms and Political Action

Paul Zajicek
Executive Director
National Aquaculture Association

Aquaculture Conference 2017
Ames, Iowa
November 14, 2017

Animal Medicinal Use Drug Clarification Act (AMDUCA)

- National Strategy for Combating Antibiotic-Resistant Bacteria (CARB)
- National Antimicrobial Resistance Monitoring System (NARMS)
- Veterinary Feed Directives (VFD)
- Compliance Policy Guide: Extralabel Use of Medicated Feeds for Minor Species (CPG 615.115)

"In general, the Agency [FDA] will not recommend or initiate enforcement action against the veterinarian, animal producer, feed mill, or other distributor when extralabel use is consistent with this document."

- Aquatic Animal Drug Approval Partnership (AADAP)
- Drug Approval Working Group (DAWG)

Federal Motor Carriers Safety Administration (FMCSA)

FMCSA rule that implements ELD/HOS requirements for CMVs effective December 18, 2017

- Commercial Motor Vehicle (CMV)
- Hours of Service (HOS)
- Electronic Logging Devices (ELD)
- Agricultural Exemption:

The HOS regulations do not apply to the transportation of agricultural commodities operating completely within a 150-air mile radius. HOS not triggered until pasted that limit.

LACEY ACT

- America's first conservation legislation passed in 1900
 - Supported State Wildlife Regulations
 - Prevented Injurious Wildlife importation
- US Association of Reptile Keepers legal challenge (USARK)
- NAA Lacey Act Coalition

NAA Lacey Act Coalition

- Amend the definition of “fish or wildlife” in 16 U.S.C. 3371 to exclude farm-raised animals.
- Reaffirm the intent of Congress to prevent the import of “injurious” wildlife.
- Delete FWS authority to regulate salmonid diseases described in Title 50 of the Code of Federal Regulations. Create this authority and transfer the funding to the U. S. Department of Agriculture, Veterinary Services (USDA VS).
- Create a process that includes a definitive timeframe for conducting science-based risk analyses to list a species as injurious wildlife, including the involvement of key stakeholders.
- Create the means to directly and effectively address invasive species by providing federal technical expertise to the states to identify, prevent, manage or control species.

Commercial Aquaculture Health Program Standards (CAHPS)

- Commonsense
- Nonregulatory
- Five Principles: Aquatic Animal Health Team
 - Risk Characterization and Management
 - Surveillance
 - Investigation and Reporting
 - Response
- Proof of Concept: Maine (Atlantic salmon, and shellfish), North Carolina (tilapia), Rhode Island (shellfish), Idaho (trout), Florida (koi/goldfish and Washington (Atlantic salmon and shellfish).

NAA Board of Directors and Friends 2017 Walk on the Hill

- Creating a constituent match
- NAA contacted 18 Senators and 16 Representatives
- Met with 16 Senators and 12 Representatives
- 10 Issue Summaries
- Follow-up!!!

Thank You!
